EXPERIENCE

SCADpro x Delta Air Lines UX Designer

Atlanta, GA
Sep 2026 – Nov 2026

- Designing the experience of Delta Air Lines' redesigned uniforms, exploring how packaging, storytelling, physical touchpoints, and a digital app can shape how customers experience the new uniform line.

SCADpro x Georgia International Convention Center (GICC) UX Designer

College Park, GA
June 2026 – July 2026

- Analyzed visitor navigation and existing wayfinding touchpoints as part of a 5-person wayfinding team, identifying gaps in signage hierarchy, naming conventions, color zones, and placement.

Ziora Copilot UX Design Intern

Atlanta, GA (Remote)
Jan 2026 – Apr 2026

- Led UX design for Ziora Copilot, an AI-powered SaaS platform for therapists and patients, collaborating with a 9-person team across UX, engineering, marketing, and mental health research.
- Audited the existing platform and identified opportunities to improve onboarding, information architecture, and progressive disclosure, reducing information overload across therapist and patient experiences.
- Designed and iterated therapist and patient workflows from wireframes through high-fidelity prototypes, creating 50+ screens across both experiences.
- Proposed and oversaw the UX testing approach in Mexico, using findings to inform ongoing design iterations.

Atlanta Ronald McDonald House Charities UX Design Lead (Contract)

Atlanta, GA
Jan 2026 – Mar 2026

- Led UX direction for a 19-person multidisciplinary team, reimagining a newly built 5-story playscape through creative technology.
- Designed an AR app in Figma, translating the team's 4 3D worlds and 6 creatures into an interactive scan to explore experience with educational content and playscape-based activities.

SCADpro x AIG UX Designer

Atlanta, GA
Sep 2025 – Nov 2025

- Conducted secondary, competitive, and on-site research at AIG's Atlanta Innovation Hub to identify kiosk use cases across employees, prospective clients, and visiting employees from other AIG locations.
- Owned the UX/UI design of the "About AIG" and "Explore ATL" experiences, creating 70+ screens and 50+ components, refining visual hierarchy and interaction patterns.
- Collaborated within a 15-person multidisciplinary team and iterated with 5 AIG executives across 5 design reviews, incorporating feedback into the final 4K interactive kiosk experience.
- Supported the final project handoff by preparing documentation, including a user manual and technical guidance for integrating the kiosk experience into AIG's existing Appspace platform.
